

THULE® SWEDEN

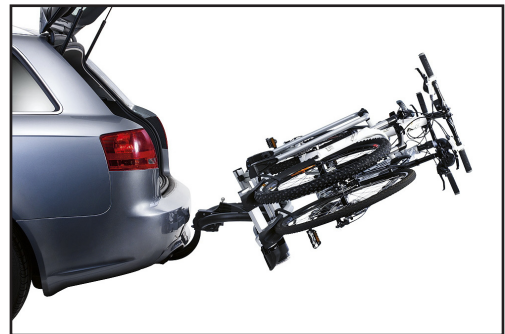

G6 EuroClassic 929003

Thule EuroClassic G6 LED

– our exclusive, stable and extendable carrier

- 3-bike carrier, adapted to 4-bike with adapter 928-1.
- Aluminum and other high-tensile, lightweight materials have been used for this premium carrier.
- Foot-pedal-tilt for easy and convenient boot access while the carrier and bikes are mounted. A built-in stop prevents the bikes from touching the ground. The wide tilt-angle enables opening of even very large rear-doors without interfering with the carrier.
- Carrier lockable on towbar and all bikes lockable to carrier with one key - compatible with "Thule-One-Key-System".
- Folds flat for easy storage, compact enough to be kept in the trunk of the car.

Tiltable

Smart towbar coupling
